

THE BLUSEED STORY

In 2001, Carol Marie Vossler took a worn warehouse in Saranac Lake and converted it into a multi-purpose art center.

Today, BluSeed Studios stands as a nonprofit artist workspace dedicated to the creation, promotion, and presentation of the arts in the North Country.

BluSeed Studios is a 501c3 arts organization whose mission is:

- * to provide a space and promote a shared environment where artists, educators and community members have the opportunity to learn and participate, experiment and diverge, exhibit and perform, move ideas and aesthetics forward
- * and to share this diversity as an all-inclusive gateway to artistic experience
